

PARKING NOTICE

As a town centre location we are very limited on parking space and like the other businesses within the town we do not have specific parking other than that saved for our hotel guests who have travelled long distances and paid for overnight parking.

On many occasions recently people arriving to stay with us have had to park in the town and their luggage be transported in by our staff. We have also had delivery drivers unable to arrive at our property to drop off our orders simply because of the bad and often illegal parking taking place. This means they also have to back out onto the market street which can be dangerous.

We should also point out the enormous damage taking place on the site regarding planters, trees, box hedging, signage and lighting all of which are regularly driven over or into and needing to be replaced which is a huge financial burden. There are also **many** people who park and do not visit our hotel, café or shop but simply use us as a free convenient space.

In 2019 we will be marking out and saving the spaces to show only where parking is available, this will be firstly reserved for the hotel residents and there will be no guarantee of available spaces for afternoon tea, restaurant and CoCoes customers.

The town centre parking should vastly improve at the Pedlars car park and the Market Place with the work currently being undertaken to install meters limiting people to 2 hours only of free parking. We know from being on site in the early morning that the Pedlars car park gets filled up with people leaving their cars and catching the bus to Norwich or Kings Lynn for the day. The Market Place gets filled with people who work in the town and park for convenience sake.

We would therefore ask all afternoon tea, restaurant and CoCoes customers to use the free parking within the town, only a minutes' walk to us.

Thank you for your understanding and continued custom.

Les, Vanessa, Hannah & Dominic (Owners)
